

# **WM** MedWaste TRACKER<sup>SM</sup> WASTE MANAGEMENT

**Safe Solutions for Sharps and Medical Waste**

## **How the MedWaste Tracker<sup>SM</sup> System Works**

- Each MedWaste Tracker<sup>SM</sup> System contains all of the supplies needed to safely contain and treat community sharps and small quantities of medical waste.
- Our MedWaste Tracker<sup>SM</sup> – Safe Solutions for Sharps and Medical Waste includes all components required by the U.S. Postal Service for documented destruction of regulated sharps and bio-hazardous materials.
- Each system includes a pre-printed tracking form, prepaid destruction, and postage. All required materials are included. Materials that may be placed in these containers include<sup>1</sup>:

- Sharps (sharps containers only)
- Sutures
- Scalpel blades
- Syringes
- Lancets
- Non-amalgam-containing teeth
- Small amounts of tissue from procedures

## **To use these systems:**

Once full, refer to the provided instructions to properly seal and close the package. Then, schedule a pickup from the U.S. Postal Service by calling **1-800-ASK-USPS** or visit online: <https://carrierpickup.usps.com/cgi-bin/WebObjects/CarrierPickup.woa>

<sup>1</sup>Please consult your local and state regulations regarding the classification and disposal of medical waste.

*Boxes may vary by size and packaging.*

**Be sure to keep extra MedWaste Tracker<sup>SM</sup> systems on hand!**
